To Whom It May Concern,

I am interested in working for a successful company where I can apply my skills and share my ideas with others. I am interested obtaining a place in the workforce to gain experience and build a successful future.

Throughout the years as an athlete, volunteer worker, and academic achiever, I have gained a strong sense of dedication to whatever I decide to do. I plan to maintain this skill in the workforce, along with the other lessons I took from these programs. I learned to be organized with my schedule and balancing each obligation, and I also learned to be independent when completing necessary tasks and not relying on others to do things for me. Volunteering taught me to work with others, my academics taught me to strive for high success, and my sports taught me leadership and creative thinking. I will bring all these experiences with me and more as I earn my place and help the company to advance.

Thank you for considering me for this position. I look forward to hearing from you, and I can be reached through my phone number which is (947) 777-6452 or my email which is lilywhite21200@gmail.com.

Sincerely,

Lily White
